Miniwall®

SQLD / NQLD Range

adbri MASONRY
working together

With Adbri Masonry Miniwall® garden blocks you can easily build your own straight, curved or circular walls as well as tree circles.

TIP: For garden edges with multiple courses, affix blocks atop each other in a stretcher bond pattern using suitable landscape grade adhesive.

FEATURES

- Very light weight and easy to install
- Build garden edges one course highor small walls to 500mm in height
- One block does it all – curves, circles and straight walls

COLOUR OPTIONS

Oatmeal

Charcoal

Due to natural variations in aggregates, colour tones may vary from batch to batch.

Whilst these swatches provide a good indication of the products colour, you should always sight product samples before use.

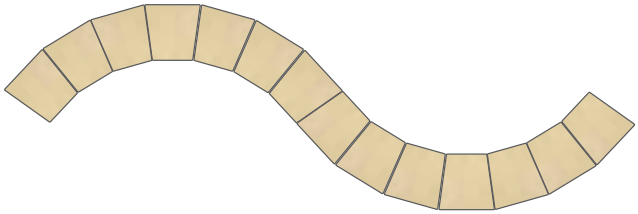
PRODUCT DETAILS

Miniwall®

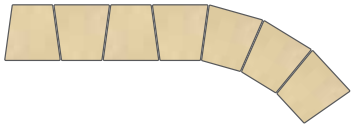
Solid Wall 50 units per m^2
Semi Solid Wall 44 units per m^2

Maximum non reinforced height 500mm (4 courses)

LAYING PATTERNS

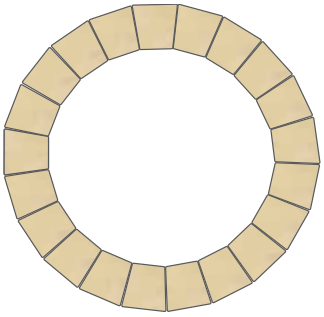


Serpentine Walls
Alter and return curves



Curved Walls
Start curves by laying blocks same way facing out

Straight Walls
Lay blocks front to back



Circles
21 blocks makes a 1200mm circle

TIPS

1. When stacking blocks on top of each other higher walls, you must ensure a stretcher bond pattern is used.
2. Don't forget to use a suitable landscape grade adhesive to glue each course of blocks onto the ones below. Place a continuous line of glue along the front and back of the blocks before placing the next blocks down firmly. Always check for level side to side and front to back
